ABOUT ME

I am a passionate Full-Stack Developer with strong expertise in the MERN stack (MongoDB, Express.js, React, Node.js) and modern frontend technologies like Next.js, TypeScript, and Vite.js. I specialize in building high-performance, scalable web applications with clean architecture and responsive UI/UX. With a solid understanding of both frontend and backend development, I am capable of delivering complete end-to-end solutions. I enjoy working on challenging projects, continuously learning new tools, and writing efficient, maintainable code.
